Take the JBoss 30-day Challenge

VIZURI'S JBOSS 30-DAY CHALLENGE

WHAT IS VIZURI'S JBOSS 30-DAY CHALLENGE?

Vizuri's JBoss 30-Day Challenge program is jointly sponsored by Vizuri and Red Hat, Inc. Vizuri is a Premier Red Hat Advanced Business Partner and JBoss Enterprise Middleware expert. Through the 30-Day Challenge, they'll migrate one of your existing Java applications from an expensive, overly complex, proprietary application server to JBoss Enterprise Application Platform.

<http://www.jboss.com/products/platforms/application>

They'll also prepare you to manage that application moving forward – all in just 30 days.

WHY SHOULD I TAKE VIZURI'S JBOSS 30-DAY CHALLENGE?

Lower costs. Increased productivity. Minimized risk.

Now more than ever, wasting money on an expensive, proprietary application infrastructure is just not an option. Vizuri takes the risk out of moving to JBoss Enterprise Application Platform – an enterprise-class, open source application platform that can help increase developer efficiency, speed time to deployment, and significantly reduce TCO.

WHY VIZURI?

Vizuri offers innovative, results-oriented business solutions from expert services through full-scale project responsibility engagements. Vizuri has significant expertise within the JBoss Enterprise Middleware platforms and has delivered many high profile accounts such as the US Navy, FBI,

Orbitz, Intuit, NBC, and GE Healthcare to name a few. Their experience delivering end-to-end solutions provides them with a unique skill set to assist organizations evolving their enterprise architecture to include professional open source.

They can assist your organization with:

- JBoss Enterprise Platform selection and sizing
- Installation, configuration, and high-availability configurations
- Reference architecture and design services
- Complex systems integration
- Legacy systems modernization
- Application and server performance tuning

SO IF YOU'RE WONDERING:

- How to deliver projects with a stagnant or shrinking budget in a very uncertain economy
- What to do when your current proprietary vendors sunset the version you're using and begin charging even more for maintenance and support
- Whether now is the right time to see how enterprise-class, open source middleware can help your business

Now is the time to take Vizuri's JBoss 30-Day Challenge. Visit <http://www.vizuri.com/30daychallenge>, email jboss30day@vizuri.com, or call 703-885-8020 for more details.

Terms and conditions apply. Learn more, and read the FAQ at <https://www.vizuri.com/jb30dayfaq.html>
